SOLUTION

Rooster at Dawn

Arjun was the only person alone with **Vincent** — **Barn**. The killer is unmasked.

1. Clue: “Arjun was standing on a rug.” So Arjun can only be in one cell; cross out the 27 that don't fit.
2. Clue: “Callum was in the stable.” So Callum can only be in 5 cells; cross out the 23 that don't fit.
3. Clue: “Daria was in row 5.” So Daria can only be in 5 cells; cross out the 23 that don't fit.
4. Clue: “Enrique was in the living room.” So Enrique can only be in 5 cells; cross out the 23 that don't fit.
5. Arjun has only one possible cell left: row 2, column 2. Place Arjun there and cross out the rest of that row and column.
6. All of Daria's possible cells are in row 5, so Daria takes that line. Nobody else can be in row 5.
7. Bruno was south of Daria. Compare where each of them can still be and cross out the cells that would break this.
8. Column 1 needs exactly one person, and only Vincent can still go there. So Vincent must be in column 1 — cross out Vincent's other cells.
9. Row 4 needs exactly one person, and only Callum can still go there. So Callum must be in row 4 — cross out Callum's other cells.
10. Callum has only one possible cell left: row 4, column 5. Place Callum there and cross out the rest of that row and column.
11. Enrique has only one possible cell left: row 3, column 6. Place Enrique there and cross out the rest of that row and column.
12. Bruno has only one possible cell left: row 6, column 4. Place Bruno there and cross out the rest of that row and column.
13. Daria has only one possible cell left: row 5, column 3. Place Daria there and cross out the rest of that row and column.
14. Vincent has only one possible cell left: row 1, column 1. Place Vincent there and cross out the rest of that row and column.
15. The only other person in Vincent's room was Arjun. Arjun is the murderer!
